Guardsman Held Here In Stabbing

Crawford County Sheriff Joe White said Daniel J. Grindel, 18, was allegedly stabbed during a fight. He said a guardsman from Lansing has been charged with assault with intent to do great bodily harm less than murder and is lodged in lieu of \$5,000. His name and details of the incident are being withheld, pending District Court arraignment Tuesday, the Sheriff said.

PRESENTS CHECK—Bob Harrington, (right) presents Gift Certificate to Carol Schrader, winner of name contest. (Michael Delp Photo)

Big Brothers/Big Sisters of Crawford County has a new name. The contest is over, and the winning entry was "Sibs For Kids", submitted by Carol Schrader of Grayling. Sibs is short for Siblings which means brothers and sisters. Volunteers in the program will still be referred to as Big Brothers and Big Sisters because that is the position they fill. The program will continue to maintain the same high standards with the emphasis placed on service to kids from one parent families.

Carol's winning entry earned her a gift certificate valued at \$25 donated by Ben Franklin's Store in downtown Grayling.

Response to the contest was gratifying and letters of honorable mention went to entries submitted by Ann Sloan, Mrs. S.A. Christensen and Mrs. Margaret Hayes.

Taylor's Rejuvenate Steam Engine

by Michael Delp

In these days of nuclear power and solar energy, some would say the days of steam are over. Most of the older members of our society still remember the days when steam engines were on the rails, and some might even remember the age of steam-driven tractors. Yet, for at least two local residents, steam is still a reality, and still a reason to invest time and love and money in rebuilding old steam engines.

Tim Taylor, is only fifteen, but already has a wealth of information about boilers, water, steam power and how to hold a fire in a box. Mostly, Tim remembers he got interested because his father, local Community School Director, Howard Taylor, let him play around with machines since he was a young boy.

At five Tim recalls looking at the monstrous engines on display in Buckley at the Northwest Michigan Engineer's and

Threshers Club. They belched steam and the people stood by half in amazement and half in fear. Tim watched, and each detail became part of an appreciation of steam power.

Now, Tim has his own engine to fire. Last week marked the end of seven weeks of labor to get his 1910 James Leffel engine in running condition. Mounted on top of a boiler and a superheater in the late 1950's, the 1910 Leffel performed faultlessly, throwing the flywheel into

motion once the pressure moved over 60 lbs. per sq. inch in the engine's 2½ foot in diameter boiler.

For Tim, the immersion into the realm of steam driven mechanics has been one of learning from experience. He will be able to tell you about the physical properties of water which make boiler firing both enjoyable and dangerous. He knows how fast water expands and exactly how much he can inject safely into his boiler.

Soon Tim will be writing his test for a 3rd Class Boiler Operator's License and will then begin work with his father on restoring their 1928 McCormick-Derringer Tractor.

From a distance Tim and his father almost look identical as

School Open for Registration Aug. 18

The Grayling Elementary School will be open daily from 8:00 a.m. to 12:00 noon and 12:30 to 4:00 p.m. beginning August 18th. We encourage all new families and the parents of Kindergarten to contact our school office regarding the registration of their children, if they have not already done so.

Early registration of new students enables us to be prepared for the child. Records can be transferred and classroom assignments made before the first day of school. Opening day of school is extremely busy and early completion of the necessary enrollment forms is a definite time saving convenience for the parents as well as providing a smoother and more pleasant start for the student.

If you have a Kindergarten child that you have not yet enrolled, it is of the utmost importance that you contact our school office immediately. The State of Michigan is becoming increasingly firm on pre-school requirements and children not meeting the necessary obligations cannot be allowed admittance in school. If you register your child with us we will be happy to assist you in any way possible with scheduling completion of these requirements.

Blind Attend Camp AuSable

by Michael Delp

Most of us look forward to summers of camping and sailing, and sitting next to campfires late at night and watching the coals burn down. We often take for granted what we experience will be brought to us primarily through our sense of sight and that each morning will bring another day of visual excitement. For the 50 kids who attended Camp AuSable's Blind Children's Camp last week, those pleasures were still available and still enjoyed.

The Blind Camp, which is sponsored by the Seventh Day Adventist Church, offered fifty children, 12 of whom were totally blind, a chance to meet and interact with their natural environment. Jerry Stevens, the Director of Lake Area Services for the Christian Record Braille Foundation, explained that the kids have at their disposal 840 acres of prime natural environment.

For a week the campers are given opportunity to participate

• Providing a forum for wide public input in the Upper Great Lakes investment strategy.

• Providing specialized economic development training for local officials.

The Center will be operating this year with a consolidated program which is uniting the capabilities of the Northeast Michigan Economic Development Association, The Northeast Michigan Surplus Equipment Repair Program, the

If We Are Lucky!

by Harrison Goodhue

Have you ever met Mattie Lowe?

Well, if you have ever been to eat, or to an affair, or to a party at the Senior Citizens Center, you have probably seen Mattie, or heard her recite one of her poems. And if you have you could never forget her!

Inside Mattie's tiny body, bent by arthritis, is the courage and the tenacity of a Lioness!

She was born Mattie Mansfield in a log house in Mio 91 years ago and has spent her entire life in this area.

She met and married David Lowe who worked for the railroad during the logging days. They lived in DeWard when it was a bustling logging camp town and they produced nine children.

David has been gone a long time now and Mattie lives with her daughter Doris Lowe in their Grayling home, and Mattie is mighty proud of her nine grandchildren, eighteen great grandchildren, and two great great grandchildren.

The most important thing about Mattie is that until the Senior Center's Outreach people found her about seven years ago and persuaded her to come to the Center and join in the Center's activities with her contemporaries, Mattie was a rather lonely and secluded individual, for Doris had to be away every day working at her job.

they pour over the engine, checking gauges and watching the water gauge. Perhaps the only thing missing in Tim's appearance to give him the authentic air of a true boiler operator is the absence of a little Redman in his cheek. He opens the fire door, checks the flame and he and his father pour the wood to the fire, then stand back and watch the pressure rise. When Tim blows the whistle, Howard will nod his head, spit off into the grass, and tell you his son knows what he's doing.

Together, they make for one of Grayling's most interesting father-son relationships. Up there on the engine Tim slowly opens the throttle, sending smoke high into the air, then settles back to watch the flywheels spin. The look on Howard's face will tell you that soon they'll both be in Buckley running engines, fascinating the crowds, and who knows, maybe they'll even share a chew.

But, once Mattie found herself among people of her own age, amidst all the activities at the Center, as Mattie says, she was literally "reborn" and began her "second" life.

And what a life it has been for her these last seven years!

She plays in the Kitchen Band; she goes on all the "mystery" trips; and the trips for the handicapped. She has been the "Queen" of the Seniors and held court for her one year reign; and she is the official poetess of the Center. Here is a sample:

"Us girls, since we got the right to vote, have made a great commotion,

We've swept the land for the Women's Lib from ocean to ocean.

One President has fallen from his exalted station,

We should vote and elect a woman to run the whole darn nation!"

And these are Mattie's words too: "I think the Center is the most marvelous thing that ever happened to Crawford County, and I sure recommend that everybody come. We will welcome you heartily, and I will even get up and dance with you, even if I am 91 years old!"

Yes, if YOU are lucky you will live long enough to be a Senior; and if you do, hope that the Senior Citizens Center is still functioning and thriving here in Grayling, because it is a place that brings happiness and joy to the lives of our elders like wonderful Mattie Lowe.

in such varied activities as Archery, Tumbling, Water skiing, Paddle Boating, Arts and Crafts, Swimming, Canoeing, Sailing, and Horseback Riding. The rewards are more than obvious as the kids mill around their counselors and staff waiting for each particular activity.

Camp AuSable, which is located on Shellenbarger Lake, just east of Grayling, is a year-round camp sponsored by the Michigan Conference of Seventh Day Adventists. Stevens was quick to point out that over 10,000 people per year use the camp facilities, which boast a beautiful nature center, log cabins, a huge log dining hall and miles of wilderness trails.

The Camp program for the blind is funded through the Michigan Conference, and also receives donations from the private sector. It is money well-spent, and the children who immerse themselves in camp life for a week are visibly satisfied with their surroundings and the expert attention they receive. They return home with vivid memories of the sensations of skiing and handling the animals at the nature center, the feelings still warm in their faces of campfires and singing.

New family members were Mrs. Robert (Jaune Corombos) Wilson, and Jennifer Margrethe Wilson. Jeanne and Bob were married in Detroit Aug. 9, while Jennifer was born to Michael and Sheila (Frye) Wilson in Westbury, Long Island, N.Y., June 2. James Axel Wilson of Juneau, Alaska, who couldn't make it in 1979.

Bob and Fay Bovee attended the 63rd Annual Michigan District Kiwanis Convention in Kalamazoo Friday through Sunday. We had the pleasure of hearing Bud Guest as the Friday luncheon speaker. And hope that many of you may have the same pleasure when he speaks at Kirtland CC this fall. Paul Tomshany of Dexter, who also has a residence at Bear Lake and is a frequent Grayling visitor, was elected as Governor-Elect of the Michigan District 1981-1982. The convention closed with a Memorial Breakfast on Sunday at which time Lorne Douglas and Bill Kelly, last Kiwanians of the Grayling club, were among those honored.

On Sunday, the Bob Bovees attended Memorial Services for his step-father, William Zimmerman, in Livonia.

Mrs. Dorothy Phillips of Grayling and Mrs. Grace Hicks of Traverse City have returned from a two-week trip to Alaska. They flew to Seattle, boarded a motor coach to Vancouver, and then spent three days aboard the Sun Princess to Skagway. They took a railroad to White Horse motor coach to Fairbanks, visited Mt. McKinley, took a stern wheeler river cruise and visited Anchorage. Among the things Dorothy enjoyed were the gorgeous flowers everywhere.

The John Linendolls entertained their cousins from Livonia week before last, Mr. and Mrs. Dave Skronk and two children and Don Gehringer and son. They enjoyed a river trip on Saturday and on Sunday they invited in her parents, the Harry Hoerl's and the rest of the family, the Jim Kolkas and the Jim Hatfields.

From Our Corner ...

Following two Sundays of getting out our corner with ease, we spent yesterday afternoon trying to conjure up something worth while to no avail...and now we find ourselves in the same predicament at dead line Monday night...some weeks we just can't get the cobwebs out so we can come up with something, even if it is just tid-bits...

Maybe our doldrums come from the fact it is hard to believe there are only 14 days until Labor Day weekend and the end of summer...where did it go? Seems like just yesterday we watched the Memorial Day parade...

One last effort for the Grayling Winter Sports Carnival. We have run the article on the front page for two weeks about the Roast for Emil Kraus this Thursday at the Officer's Club at Camp Grayling. Tickets are only \$6.50 per person and includes a sit down steak dinner plus a lot of fun roasting da-judge. We threw this in our corner in case some of our readers don't bother with the front page...be there, it's going to be fun...all proceeds go toward the carnival...

There just isn't anything we can come up with this week so we're going to swipe another one of Dave Rogers' gems in his Sunday Punch editorials from this Sunday's Bay City Times, we thought it amusing, so will pass it on to those who don't get the Times...

Whistling past the graveyard

I ran into my friend Harvey the other day and he was whistling "Happy Days are Here Again." Harvey's an unreconstructed Democrat.

"Wasn't Kennedy great at the convention," Harvey exclaimed, breathless from all the whistling.

"Kennedy? But your folks in New York nominated Carter." I said querrulously. "Remember him."

"Yeah, but Kennedy's great speech will bring the party back together and lead us to victory in November," said Harvey in a positive tone. I answered:

"Kennedy's just tuning up for 1984; he hardly even smiled and when Carter tried to hug him he acted like a 10-year-old kid with his maiden aunt at a family reunion."

Harvey wistfully told me his faith in the Democratic party was stronger than ever after watching that great film about Hubert Humphrey, and hearing all about the tremendous success of Roosevelt's "New Deal" again.

"That was nearly 50 years ago," I said. "You keep telling me that it's the Republicans who are out of touch because they want to go back to the good old days."

"Well, President Carter's got a lot more experience in Washington than Reagan, he knows how to work with those politicians and bureaucrats," Harvey reminded me.

"But we all voted for Carter because he wasn't part of the Washington scene, wasn't so tied in with Congress—he was one of us regular folks. I thought the White House was going to be moved to Plains, Georgia."

"Harvey explained: "Well, that's true but the peanut business kind of got stale and Amy liked her room in the White House better and they thought it would be handier if they lived in Washington in case Brezhnev or somebody called up."

"We're going to stick together and knock that Reagan out of the race," said Harvey, adding: "The country would really go downhill if he got to be President."

"Golly, a lot of people aren't working now, and then there's the hostages in Iran and we couldn't go to the Olympics and the dollar's in pretty sad shape," I said. "It would be really rough if we went down any further."

"That's right, and Jimmy Carter's working night and day to make everything OK," Harvey said. "He hardly gets any sleep at all because he's so busy making plans to make America greater than it already is. You know sometimes he puts in 18 hours of work a day."

That's when the old light bulb went on in my head and I told Harvey I might have the answer to the country's problems:

"Well Reagan only puts in about six hours, what with his swims in the morning, naps in the afternoon and knocking off early to watch TV with Nancy. If Carter's working 18 hours and things are getting worse, why don't we try somebody who doesn't work as hard? Maybe things will straighten out on their own."

Gee, I never thought of that," said Harvey, walking away whistling "The Battle Hymn of the Republic."

The Bible Speaks

From Calvary Baptist Church

The United States In The Balances Part 2

Last week we concluded by observing two promises of God which we in the U.S. can depend upon for future blessing. First, we saw the promise of 2 Chronicles 7:14 that if we have national repentance of sin, God will heal our land. Second, we saw the promise to Abraham in Genesis 12:3 that God will bless every nation which supports Israel, and curse every nation which opposes Israel. I believe the success of the Moral Majority in national politics is resulting from the first-fruits of national repentance on a small scale. Our continued defense of God's people Israel is the best overall national defense system we can have.

The third reason I believe

"Make sure your car insurance protects you in 'no-fault' states."

"If you're planning on a long trip by car, chances are, you'll be driving through states with 'no-fault' insurance laws."

"If you're covered by an Auto-Owners policy, you can relax. Auto-Owners provides protection automatically under its bodily injury and property damage liability coverage in 'no-fault' states."

"This kind of far-sighted protection is just one of the reasons we recommend Auto-Owners Insurance to the people we serve."

Auto-Owners Insurance
is for auto owners, too.

God will spare America from destruction is the number of Bible believing Christians still left in our nation. Although living practices do not justify the claims of the polls, there are still many Christians left who faithfully read their Bibles, pray, attend church, witness for Christ and support God's work, for God to destroy America. In Genesis 18 God agreed with Abraham to spare Sodom for 10 righteous people. I believe there are enough righteous people in America for God to answer our prayers and spare our nation from destruction.

The fourth reason I believe God will spare America from destruction is the alarming growth of Christian schools across America. There are over 3 new Christian schools opening every day across America. The campus problems of the 60's assured many Christian parents they could no longer trust the government to educate their children. They were being turned into Atheists by the secular religion of Humanism. They were told they ascended up by evolution from a lower form of animal life. They were taught to distrust their parents and country. Permissiveness in discipline led to drug problems, violence, and a breakdown in the learning process. Because of amoral approaches to problems like sex outside of marriage, we were soon seeing young people void of character.

The 70's mark the beginning of a new Christian school era. If the present growth of Christian education continues through the 80's before it peaks out, we could approach the year 2,000 with 25,000 to 30,000 Christian schools across America. Every great spiritual revival or national reformation has been preceded by an intense period of Christian education stressing Bible morality. I personally believe God is preparing America, not for destruction, but for reformation into one of the greatest nations in history. Only the second coming of Jesus Christ seems likely to alter the above course. (Next week: "A Personal Plan for National Success.") (adv.)

AFTER THE STORMS...

A note of thanks to our customers.

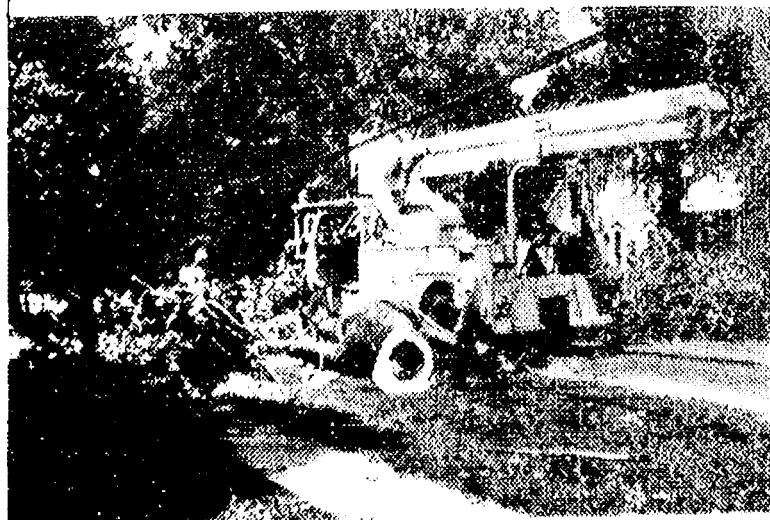

Disaster struck Michigan.

Four separate storms with winds of up to 80 miles per hour rocked the Consumers Power Company service area between July 15 and July 20. More than 250,000 of our customers were without electric power at some time during the week. The storms brought down some 2,100 spans of high-voltage wire, damaged almost 200 utility poles, burned out some 275 transformers and affected more than 10,000 secondary and service wires.

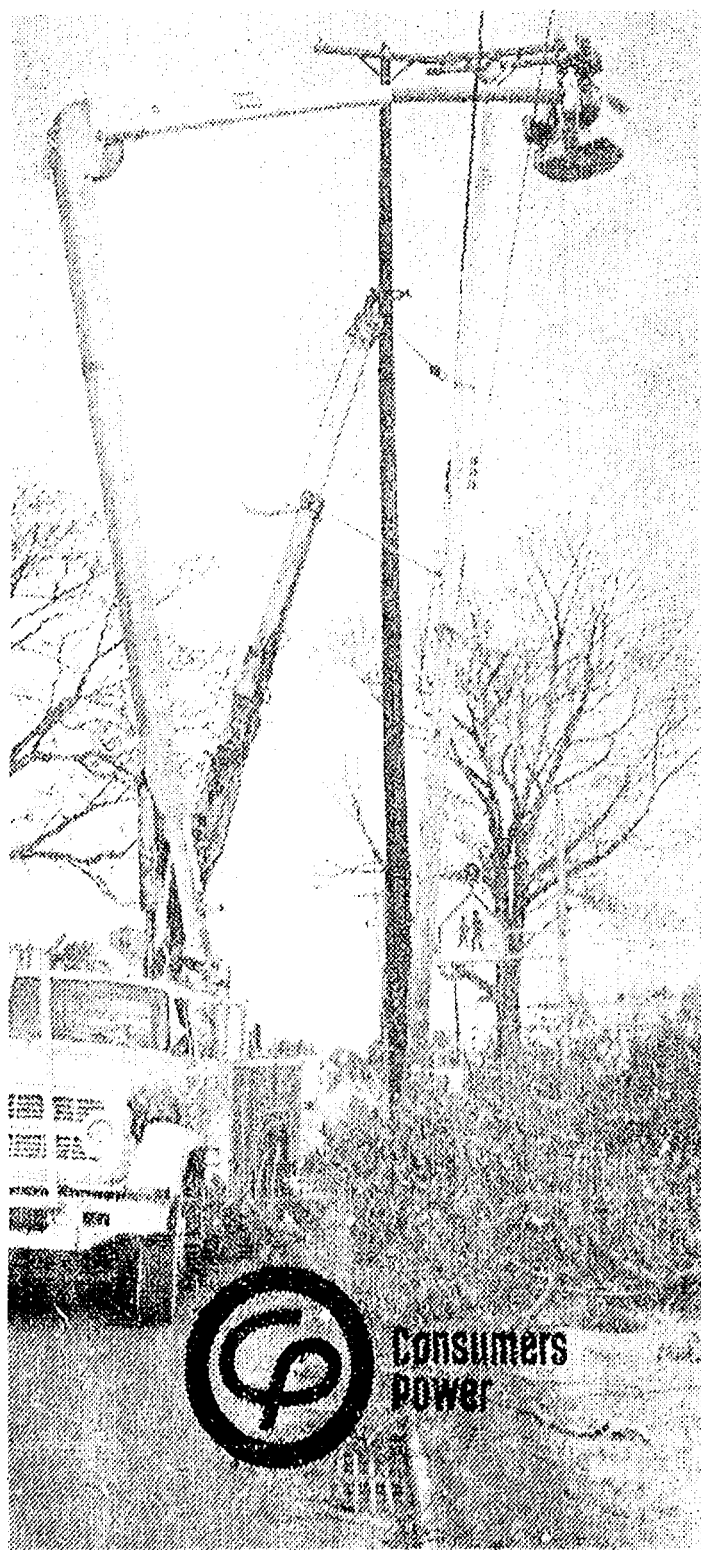

To deal with the storms, line and tree-trimming crews moved around the state from one damaged area to another and put in exhausting hours in each. Crewmen worked with only 4 or 5 hours rest. Some slept on cots in meeting rooms and school auditoriums. Meals were fast, clean clothes a luxury.

There was much to do. In some cases, a single repair restored power to many customers, but in other areas, restoration work was a lengthy, almost house-to-house effort.

Even now, with power flowing again to all our customers, the cleanup is continuing. Temporary connections must be made permanent and the diversion of Company crews to that effort will mean delays of up to four weeks for new customers awaiting service.

To our new customers and to all our customers affected by the Week of Storms we express sincere gratitude for your patience and cooperation. Efficient, reliable service is what our business is about especially in times of trouble.

The Week of Storms was one of those times.

Van Johnson and Tribute at CC Playhouse

Van Johnson and the cast of Tribute currently at the Cherry County Playhouse will form the National Touring Company of this production. Scheduled to open in Cleveland in late September, the production will continue on to St. Louis, Chicago, Washington D.C., Philadelphia, San Francisco and finally Los Angeles.

In the play Van portrays Scottie Templeton, an irresponsible, yet charming press agent whose sense of humor has made him everybody's friend. Everyone that is except his son. When Scottie takes ill he begins a quest for his son's friendship. His search ends in an affectionate reconciliation between father and son.

Critical acclaim has followed Johnson on his summer stock tour. The New York Daily News has said that Van's performance contains "Bright often witty one liners with just enough undercurrent of tragedy to tug the old heart...Van must be the most amiable actor born yet. He seems, above all, a genuinely nice guy, a charming pro that comes in and gives his very best."

Van Johnson stars in Tribute at the Cherry County Playhouse from August 19th through 31st. For ticket information call the theatre in the dome of the Park Place Motor Inn at (616) 947-9560.

RICHARD MILLIMAN

As an election year, 1980 has been—and will continue to be—filled with swirling hoopla and all the other elements of intense campaigning.

But in Michigan, the eyes of the voters are not focused so much on statewide election races as on issues.

Michigan voters will help elect a President, true. Members of Michigan's 19-member Congressional delegation are up for election, and so is the State House of Representatives. County offices are on the ballot, too.

But the usual focus of statewide attention—the governor's job—is not up for election this year, nor are the other statewide administrative jobs of lieutenant governor, attorney general and secretary of state.

This is also one of those years when the United States Senate seat is not on the ballot, and even the State Senate is in the middle of its four-year term.

The Michigan Supreme Court has two seats up for statewide election, as do the elective statewide educational boards. As usual, these seats likely will be lost in the top-of-the-ticket excitement.

Attention statewide, however—in addition to being on presidential race—properly will focus on three tax issues which will appear on the ballot.

The most heat is engendered by the so-called Tisch Amendment, patterned after the famous California Proposition 13 of a couple of years ago. The most severe of the three tax proposals, it is the most feared by governmental insiders and educators because it is a genuine tax cut. Lots of revenue would be lost to present tax spenders.

The Tisch Amendment would slash property taxes by up to 60 percent, and thus reduce revenues to local governments—which collect all the property taxes—by an estimated \$2 billion. That's a lot of tax money.

However, the state would have to make up this lost revenue to local units. The

trauma among state officials, of course, is trying to figure out where the \$2 billion would come from. Obviously present spending would have to be curtailed—which is one of the main thrusts of the Tisch plan, as it was of its California predecessor.

The Tisch proposal also limits the rise of property taxes in the future and handcuffs governmental officials in other ways. Most of them don't like it.

Primarily in response to the Tisch threat, two other proposals will be on the November ballot. Neither is a tax cut; both are tax shifts.

The so-called Smith-Bullard Plan, backed by the Michigan Education Association, also would cut property taxes; but the lost local government revenue would be replaced by an increase in the state income tax. Thus, Smith-Bullard would shift tax emphasis from the property tax to the income tax.

Smith-Bullard, like Tisch, is on the ballot after a petition drive. Its primary support comes from the teacher and school lobbies.

The third plan is also a tax shift. Forged by Gov. Miliken and legislative leaders and placed on the ballot by the legislature instead of petitions, the proposal would cut property taxes and replace the lost revenue by an increase in the state sales tax.

All three plans have other features, but the essence is how much they cut property taxes and how they treat the revenues thus evaporated:

—Tisch cuts property taxes the most, and points to economy as the revenue solution.

—Smith-Bullard cuts property taxes healthily, and substitutes more income tax.

—The Miliken Coalition plan cuts property taxes a bit, and replaces them with more sales tax.

As the saying goes, you pay your money and you tax your choice.

We often find ourselves living on the basis of pure assumption. Take this column and its reader reaction, for instance. Because it is titled "UpNorth" some people assume it should only deal with topics relating to fishing, hunting, jack pine, rivers, etc. Yet, for several weeks now I have diverged, and opened up several points of provincial philosophy which have brought jeers and scorn from the sidelines. Now, I find I must reply.

One of the most dangerous things we can let happen is to disallow divergent thinking in our society. At times, because of the things I have written, I have been labeled a cynic, an idealist, a radical and an idiot. I often have the feeling, as I'm sure others do, that if I just shut my mouth and agreed more often, life would be much smoother and more people would say hello on the street. Well, the world doesn't always operate on the principle of keeping your mouth closed and your eyes shut.

We tend to be a bit intolerant around here of divergent thinkers. We are comfortable in this conservative enclave we have hacked out of the jackpine and cedar swamps. True, we let ideas exist for a while which do not necessarily go along with our own, but when the man is out of ear-shot we chuck and shake our heads in disbelief. We muster forces against ideas, becoming more comfortable as we tell ourselves there are only a few dying voices left "out there."

Well, I am writing from "out there."

"Out here" the air is a bit thinner, which makes for difficult breathing, but the rarified atmosphere helps for better vision, I think. I don't often find myself slipping into lapses of fear that the country is going down any moral drain or that the streets will suddenly be filled up with drug-crazed adolescents. From "out here" the world looks pretty green and pretty good.

"Out here" I spend a lot of time being a proponent of radical thought, when I am really a moderate when it comes to action, lacking the social grace to place my points in front of others logically and sometimes respectfully.

"Out here" I find myself thinking more like Huck Finn than Tom Sawyer; more like a timber wolf than a chihuahua. I get a form of religion while fishing and often like to stomp around taking pictures of alleys and the backs of stores. In short, this sometimes imagined eccentricity brings me close to a small group of unknown, and unidentified divergent thinkers in the area. As yet, we are an uninitiated, malformed group of social architects waiting for the next decade in the sticks when we will be overrun by the forces of Reaganite thinking.

"Out here" there are only a few of us. Maybe only two or three others who like to embrace unpopular ideas and support the code of living advanced by Sir John Falstaff. But, I know you, and I know there may never be a need to meet and organize.

So it is that "out here" I find safety, not in numbers, but in the thought that if it weren't for divergent thinkers many of us would find ourselves caught up in the force known as "wallowing".

In closing I offer this comment for those who want to wrap their consciousness around "out here" thinking: as divergent thinkers we are often as intolerant as the next person, will not always yield to logical thought patterns, and may never head the list of the socially acceptable. Yet we do exhibit, in times of weakness, normal human responses. We will hide from our own labels, and tend to be contradictory and sometimes cantankerous. But, if you're out walking around town, or running the river, listen. That howling you hear won't be a wolf, but will issue from the soul of something "out here" just beyond the sweep of your vision.

Senior Citizen Homemaker Service

Your Homemaker Program has been in operation for a little over a year now and I have been your Homemaker Coordinator for about 6 months. Working with the Homemakers, Volunteers and Clients, I am constantly aware of the enormous importance and necessity for the services that this program provides. It is very important that this program will be a permanent program. I think that it has been a very successful program. We have helped many of our homebound senior citizens to live a much fuller and active life. Some would never be able to leave their homes for months at a time if the Homemaker Program did not exist. We are so pleased with how we have grown and would like to have the funds to do more.

Our donation fund is way below government expectations. We have a fee scale which is suggested for the client who can afford to donate. This fee scale is given us by O.S.A.

We are required to receive \$750 in donations and to date we have received only \$500. Our program year ends September 30, 1980, and we truly hope we make our quota to keep this program in operation.

Homemaker Coordinator

Local D.A.V. Meets Tonight

The Disabled American Veterans of Houghton Lake Mid-State Chapter 135 will hold their regular monthly meeting this evening at 7:30 p.m. at the Lyons Township Hall at Higgins Lake.

Our visit and gamefest at the Saginaw Veterans Hospital on Saturday, August 2nd was very interesting and successful. We presented four Norelco electric razors and dozens of white socks to the nurses for use by the patients as needed.

We are formulating plans for our annual Forget-me-not drive for this year's welfare and hospital funds on Friday and Saturday, August 22-23, 1980.

We are seeking volunteer members for a working "BEE" to paint the Lyons Township Hall on Saturday and Sunday September 6-7. This is in appreciation of the use of the hall all year for our functions.

We are also to finalize plans for our annual Picnic which is to be held on Sunday September 14, at 1:00 p.m. All members and families are invited and welcome.

For more information call: Houghton Lake P. Mozurkewich 368-7690; Higgins Lake Bud Corwin 275-5044.

Today your boy's world is a wonderful place of trees and blue sky, puppy dogs and best friends. Perhaps his greatest decision is which tree to climb and how high to go.

But it won't always be so. As he grows, his choices must grow in scope and seriousness also.

Just as you today can't choose for him which tree to climb and how high; so also, as he grows, in wisdom and stature, you cannot choose for him the proper values and goals for his life. But you can guide and direct him in the ways you have found to be good and right.

Attend the church or synagogue of your choice and take your child with you.

**Freezing Food Takes Less Time
But Costs More for Storage**by: **Merrily Lacasse,**
Ext. Home Ec.

If your family prefers frozen beans to canned beans, you won't save much by canning your summer bean crop.

But if you are willing to spend the extra money that freezing and storing frozen food costs, you can capture much of the flavor and quality of the summer harvest for winter use.

Freezing fruits and vegetables takes less time but more purchased energy. The choice between canned and frozen food is one you have to make for your own family.

All methods of food preservation take time. If you find yourself working in the kitchen all day, that doesn't mean you are doing something wrong. That's just how it is when you preserve food.

If you consider the time you spend in putting up food as recreation, you can save money over supermarket prices. If you own your own garden or can get a good price from a farmers' market, you can save even more. Be sure to consider all the costs involved in food preservation if economy is your aim.

Blanching, chilling and packaging foods for freezing takes less time than canning. But freezing food requires electricity to bring produce to storage temperature and to keep it there for the average six months storage time. Add these utility costs to the cost of your food to determine whether you really save money.

Consider also such extra costs as the sugar required to keep frozen fruits in the best condition. A light syrup will do as good a job as a heavy syrup.

The cost of proper packaging should be considered, too—only plastic freezer containers can be reused. The moisture-resistant, laminated freezer paper, heavy foil or heavy plastic bags needed to seal in moisture and prevent freezer burn usually cannot be used more than once. And, ordinary sandwich bags just aren't heavy enough to protect food adequately.

With all this, if you choose to freeze part or all of your winter food supply, be sure to start with first quality food fresh from picking.

Storage doesn't improve food quality. It has to be there to begin with. Food begins to deteriorate as soon as it is harvested. Don't store food overnight or for several days in your refrigerator before processing it. Get it prepared and frozen as soon as possible.

When planning your freezing schedule, remember that you'll get the best prices on food at the peak of the season. For peaches in Michigan, that time is August and September; for pears, August, September, October; for cherries, July and August; for plums, September; for blueberries, the end of July and all of August. And if you want to make grape jellies, look for a good crop in September and October.

Once you have top quality produce purchased at the best price, be sure to use top quality preserving directions. Your local Extension home economist can supply you with the most reliable, up-to-date instructions for freezing fruits and vegetables.

All vegetables except green peppers and mature onions should be blanched before freezing to destroy the enzymes that cause toughening and off-flavors during storage. Blan-

ching also helps prevent loss of vitamins A and C. Use at least one gallon of water for each pound of vegetables, and start counting blanching time as soon as the vegetables are lowered into the kettle of water, even if the water has not returned to a boil.

Chill the vegetables in an icy bath for about the same amount of time they were blanched.

Fruits can be frozen without sugar, but they retain better quality if packed in sugar. Some fruits require treatment with ascorbic acid. Follow instructions on the package.

Tests have shown that food quality drops sharply when frozen food is kept at temperatures about 0 degrees F. Even though the package feels hard, the food inside begins to deteriorate rapidly. A freezer is cold enough if it keeps ice cream brick hard. Don't think you'll save money on electricity by raising the temperature of the freezer to 10 or 20 degrees. You'll lose money on your stored food.

When freezing newly processed food, put in only as

much as the freezer will freeze in 24 hours. Usually this will be two or three pounds of food per cubic foot of freezer space, based on the total capacity of your freezer. Overloading slows down freezing. Spread food out to freeze quickly, and stack it after 24 hours.

With care and planning, you can keep a freezer full of food insurance all year long.

GEAR RESTRICTIONS FOR STREAM FISHING DURING SALMON AND STEELHEAD RUNS

The Natural Resources Commission, at its July 11, 1980, meeting, under the authority of Act 230, P.A. 1925, as amended, approved the following gear restriction for a period of five years beginning October 1, 1980:

Double or treble pointed hooks exceeding 3/8 inch between point and shank and single pointed hooks exceeding 1/2 inch between point and shank may not be used on any stream except St. Mary's, St. Clair, and Detroit rivers before May 15 or after August 31 of each year.

Strolling Around Town

by Fay Bovee

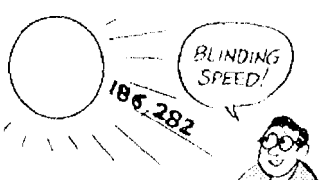

Well, folks, while doing a good deed the other morning, my "friends" (they know who they are!) accused me of measuring the cracks in the downtown sidewalk! I've heard lots of comments this week about the condition of them, but it does cost money. And I believe some new curbs depended on a highway repair, does anyone know? Anyway, there are new walks in front of Tom Robertson's and Wilma LaGrow's.

The former Worden house is sparkling in a new coat of blue paint, even the birdhouse, and they've also cleaned the sidewalks there and so has Duane Hall up on Maple Street.

The former Ila Bugby house has a fresh coat of brown paint and sounds of remodeling in the interior.

The Roger Moshiers on Ionia have a new front lawn and a home at 208 Lawndale is noticeable with flowers and a neat yard.

Thank you, Matt Vajda, for chopping down the weeds in the back alley and a couple of our local "pride" people have replanted the flowers in front of the Clinic.

Help Girls Grow and Learn by Becoming a Girl Scout Volunteer

It's knowing you're needed and appreciated. It's teaching and learning...caring about what happens to young people...helping girls grow and prosper.

It's real, it's fun, it's important. It's meeting and working with people you like—people from all walks of life...a chance to participate in national and international events...a chance to share your heritage with others. It's a challenge.

It's being a Girl Scout volunteer.

Think of the possibilities. Girl Scouting is where you as an adult volunteer can develop your potential...learn new job skills...put your special talents to use...be a positive influence in girls' lives.

You are an important person...whatever your age, ex-

perience, or education you have something to offer. There are all kinds of volunteer positions in Girl Scouting...you can work directly with girls...you can work indirectly for girls. Every job counts...it depends on what suits you and how much time you can give.

No matter what you decide to do you will have help...you will have the backing of the world's largest voluntary organization for girls ages 6 through 17...you will be part of a worldwide family of girls and adults in more than 90 countries.

A world of opportunities will be open to you. You'll have a share in the future...you'll help ready girls for today's and tomorrow's world.

In short, you'll see how valuable one person can be...how you can be that person girls can look up to—a volunteer in Girl Scouting.
